

OUR COLOURS - MARLES / WASHES .

Our range has more than 100 colours and is ever expanding. This colour chart provides approximate examples of the colours; providing equivalent Pantone colour names (Pantone Matching System®, PMS colours) for our solids for your reference.

Some colours can't be accurately reproduced because of the unique characteristics of certain fabrics; when possible, please refer to an actual garment.

Most of our marle fabrics are a polyester/cotton blend where the fabric is dyed after it has been knitted. The polyester thread doesn't absorb the dye creating the marle effect. With our 100% cotton marles the yarn is dyed first and afterward knitted into fabric with a contrasting yarn to create the marled look.

Our Stone Wash fabrics have been treated to produce a faded, vintage appearance.
